The deaconess who worked at the station went to comfort him "What is the matter?" she asked. "I cant sell a paper," whimpered Tom, "and I can't get a shine."

"Well, maybe its because you are hungry and don't look good-natured. Come and get something to eat."

Tom was hungry, he had had no breakfast and the lunch from a box which a traveller had left did make him feel better natured. Wh had finished he was ready to answer the deaconess' questions. His father was dead and he must earn his own and his mother's hving.

"But I can't earn nothing," he said again. "The big boys chese me off and the people won't buy."

"What do you say when you ask for a shine?"

"Have a shine?" The voice was a disagreeable whine.

But there was a storm brewing dition of the blood that my skin turned among the older boys. Business was none too brisk and the smaller boy was likely to damage their trade. The quality of the genuine sun cured tobacco used in REYNOLDS' Sun Cured and grown on soil where the best sun cured tobacco grows, has caused imitation brands to be brought out and offered as the genuine Reynolds' Sun Cured to unsuspecting dealers and chewers who do not look closely at the printing on the box and on the tag.

These brands only imitate the outward appearance and do not possess the genuine inside quality that has been found in Reynold's Sun Cured ever since Reynolds' Sun Cured was introduced and which has so increased the chewing of sun cured tobaccos and proven so popular, that the word "Sun Cured" is now printed on tags or in the advertising of many brands claimed to be genuine sun cured tobacco.

Did you ever see the word "Sun Cured" used in any chewing tobacco advertisement, or on any chewing tobacco tag or label, or in any other way, before it was introduced and used to identify the genuine Reynolds' Sun Cured? You see it frequently now, because many imitation brands are being made to appear as nearly like Reynolds' Sun Cured as they dare-with tag, shape of plug and style of package so similar that experienced buyers sometimes accept these imitations as the genuine Reynclds' Sun Cured.

Don't be deceived into taking imitation brands for the genuine. Be sure the letters on the tag spell "R-e-y-n-o-l-d-s' Sun Cured," and you get the best value in sun cured chewing tobacco that can be produced for chewers. Sold at 50c. per pound in 5c. cuts; strictly 10c. and 15c. plugs, with chewing qualities like that which was sold from 60c. to \$1.00 per pound before Reynolds' Sun Cured was offered to the trade.
